FOR IMMEDIATE RELEASE

The Elite Group Acquires Cabinet Works Henderson Facility

BLOOMINGDALE, IL, 11/12/10: Effective immediately, the Elite Group has acquired the assets of Cabinet Works, a division of Suzo-Happ Group located in Henderson, Nevada. The Elite Group - comprised of Elite Manufacturing Technologies (EMT), based in Bloomington, Illinois and Elite Casino Products (ECP), based in Itasca, Illinois - will officially open Las Vegas operations as EMT West by the end of December.

"Elite Manufacturing Technologies has nearly 20 years of experience in sheet metal fabrication," notes EMT General Manager, Jim Fitch. "As our company grows, having a Western Division will greatly increase our capacity to serve customers in the Southwest and West Coast regions." EMT serves several markets including gaming, medical, and telecom.

Conveniently working side-by-side, sister companies EMT and ECP will share space at the Henderson facility. Expanding operations in Las Vegas will give ECP the opportunity to have an easily accessible product showroom for its gaming clients, decrease transportation time to Vegas-based clients, and increase capacity for assembly projects and production runs.

Expanding the companies' operations comes at a very good time. "With both EMT and ECP operating at near maximum capacity, the new Western Division operations will give us the opportunity to accommodate our valued regional clients in the most efficient manner possible," comments Fitch.

About the Companies:

Elite Manufacturing Technologies is a leading, innovative manufacturer of precision sheet metal fabricated components and assemblies. Established in 1991, Elite Manufacturing Technologies operates its main manufacturing campus in Bloomington, Illinois. EMT's primary focus is to build a total solution for its customers, providing products that are superior in quality and design, competitively priced, and delivered on-time. The Company's entire manufacturing process is ISO 9001:2000 Certified, ensuring a consistently high level of quality in business practices and manufacturing operations.

Elite Casino Products is a manufacturer of high quality electro-mechanical assemblies specializing in gaming applications. The company's standard product line includes slot machine cabinets, bases, marquees, kiosks, and video monitor housings. Customized production options are limitless with Elite Casino Products' experienced mechanical and electrical engineers and talented production staff. All of ECP's products are designed with superior quality and durability in mind. The Elite Team is flexible and works with clients from concept inception or can go directly to production from established designs. Elite Casino Products is located 25 miles West of Chicago in Itasca, Illinois.
